Summary Information

Repository:	Raymond H. Fogler Library Special Collections Department
Creator:	Woodbridge, Richard G.
Title:	Richard G. Woodbridge Periwinkle Research Papers
ID:	SpC MS 1738
Date [inclusive]:	1889-1986
Date [bulk]:	1968-1986 (bulk)
Physical Description:	1 linear foot (1 box)
Physical Location:	
Language of the Material:	English
Abstract:	The collection consists primarily of published articles gathered by Richard G. Woodbridge to inform his scientific work.

Preferred Citation

Richard G. Woodbridge Periwinkle Research Papers, SpC MS 1738, [Folder No.], Raymond H. Fogler Library Special Collections Department, University of Maine, Orono, Maine

Biographical Note

During the 1960s, 1970s and 1980s, Richard G. Woodbridge, III, published several scientific books and journal articles related to the common periwinkle snail native to the northeastern Atlantic coast, *Littorina littorea*. His manuscripts provide the address of Box 111, Princeton Junction, New Jersey.

[^ Return to Table of Contents](#)

Scope and Contents

The collection consists primarily of published articles written by others gathered by Richard G. Woodbridge to inform his scientific work. He gathered several published pamphlets on lead in construction, lead lined pools and planters, as well as growing algae and seaweed as food sources for snails. The collection includes typed manuscripts of some of his published articles and some correspondence related to Woodbridge's work.

[^ Return to Table of Contents](#)

Arrangement

Arranged in two series: I. Notes and correspondence related to Woodbrige's publications, and II. Research gathered from other publications.
